*Limited to first 20 qualified Art Groups. Valid until 31 July, 2018

In a range of 77 colours, Atelier Interactive Artists Acrylic is a lush, lightfast, professional acrylic with a satin sheen and buttery consistency that artists love.

ATELIER INTERACTIVE ARTISTS ACRYLICS

Atelier Interactive allows you to use traditional techniques but also allows you to extend drying time for more wet-in-wet blending whenever you want to. It is simple to understand if we divide our user information into the two sections.

For Traditional, Fast Drying Techniques

- Use straight from the tube, with water or with any traditional painting mediums for traditional acrylic painting techniques
- Dries at the same rate as other artists' acrylics for quick layering

For New, Longer Painting Sessions

- Use with Painting Medium (mid-viscosity) for spreading paint, edge blending and glazing
- Use with Heavy Body Painting Medium for more extended wt-in-wet blending sessions
- Use with Unlocking Formula to control drying to keep blending wet-in-wet

Unlocking Medium

Imagine being able to slow down your blending time just like an oil painter. Even better, it allows you to re-open your acrylics if they are touch dry. Unlocking Formula does both so you get the best of both worlds.

Fine Mist Sprayer

A specifically designed sprayer which produces a controlled fine mist intended to keep your Atelier Interactive workable. Fill it with Unlocking Medium and you can control the painting for as long as you want to.
